## EXPERIENCE

**OCT 2021 - PRESENT**
### Engineer II | z2data | Benha

- Gathering data and analyzing it.
- Check the compliance of the suppliers' electronic products with the regions' international regulations (RoHS, REACH, TSCA ... etc.)

**OCT 2020 - OCT 2021**
### RF Engineer - Drive Test | Telecomax | Cairo

- Testing site coverage.
- Troubleshooting failures like (crosses, blocked calls, dropped calls, overshooting...etc.)

## EDUCATION

Benha Faculty of Engineering,
Communication and computer department

Bachelor's degree in engineering

- ➢ Final Grade: Very Good
- ➢ Project
  - Degree: Excellent
  - Brief: translating the sign language into spoken language

## TRAINING

**JUN 2024**
### Power BI | DEPI

- Data Analysis & Data Driven Decisions.
- PowerBI
- DAX
- Data Cleaning

**OCT 2022**
### Testing Academy Program | Valeo

- Knowing about testing concepts, testing techniques requirement analysis, testing environment, and generating test cases.
- Introduction to Python and did a small exercise using Python (how to handle XML files and Excel files).

- Applying this knowledge to use case study (writing test cases for a real UPA system).

## COURSES

- Object-Oriented Data Structures in C++ (Coursera)
- Python 3 Programming Specialization (Coursera)
- The Complete Flutter Development Bootcamp with Dart (Udemy)
- Algorithms and Data structures
- SQL
- Power BI
- Tableau

## PROJECTS

- Translating sign language into spoken language (Embedded System Project)
- Scraping data from Amazon (Python)
- Titanic data analysis (Data Analysis Project)
- COVID Data Exploration (Data Analysis Project)
- Sales Analysis (Data Analysis Project)
- Olympic Games Analysis (Data Analysis Project)

## SKILLS

- Ability to work individually or as a part of a team
- Problem-solving
- c++
- Embedded system
- Python
- SQL
- Power BI
- Tableau
- Excel
- HTML
- CSS
- Flutter
- ISTQB
- Mobile package (2G,3G, LTE)

## LANGUAGE

- Arabic "Native"
- English
